

NO DIVORCEE NEED APPLY.

E. B. Danforth, the choice of the California delegation for Naval Officer for the port of San Francisco had a close shave for his appointment. President Harrison stood out for a long time for the reason that Danforth was a divorced man. The persistency of the delegation finally prevailed however, and the President reluctantly issued the commission, but with the understanding that henceforth the application of no divorced man for official appointment would be favorably considered. Harrison is a strict Presbyterian and evidently carries the tenets and rules of his church into his official life. He is probably the first President who ever considered it necessary to pry into the details of an applicant's domestic life before deciding upon his fitness for public position.

CUT ITS TEETH EARLY.

Dakota, the newly admitted State, has led off by passing a lottery bill. Dakota has cut its wisdom teeth early in life. The lottery will not cause any more people to buy tickets than before, but the citizens of Dakota who have been patronizing New Orleans, will now purchase tickets of their own State. The fund will pay for the running of the State government, promote irrigation schemes and draw millions of money into the borders of the new State.

Nevada will doubtless send thousands of dollars there—until she gets a lottery of her own.

The business portion of Dakota is enthusiastic over the passage of the bill. The preachers protest, but it is their business to do so.

The Salt Lake Herald says a free press was never disturbed in that city, to which statement the Tribune replies: Two editors of the Vidette were taken up in the neighborhood of City creek, one was beaten almost to death by Mormons and made to promise to leave the Territory and did leave. Their offense was telling the truth in their newspapers. Another editor had to take refuge in Camp Floyd for stating in his paper the truth about the murder of a gentile in the streets of this city. Reporters have been repeatedly beaten for telling the truth through the Tribune, and that no newspaper office has been sacked in this city, has only been through the fear that such an attempt would, no matter how it might terminate, seal the doom of Mormonism in the United States. The Herald is a pitiable and bungling liar.

COAST NEWS.

A party of Chinese in Green Valley, El Dorado county, Cal., made an attempt to reach Dutch Flat. Four of them are buried in a snow slide which swept over them, and one was carried into the river.

Ripe strawberries have been selling for 15 cents per quart at Santa Barbara, Cal.

The Union Pacific in Montana and Idaho is reported at Helena, Mont., to be in a deplorable condition. Warm winds have caused a thaw, which suddenly froze again, and the cuts are reported to be filled with solid ice. Railroad officials at Helena assert that two weeks will be required to get the roads open, as the solid ice requires blasting.

The town of Burke, Idaho, in the Coeur d'Alene mining district, has been nearly destroyed by avalanches. Half of the business houses are in ruins. The terror-stricken inhabitants have fled to the towns of Gem and Wallace, fearing a repetition of the disaster. Monday six miners were killed at Nine-mile creek, five miles from Burke.

Dr. Nichols of Philadelphia has been elected assistant Bishop of California. A California man would have done much better than an Eastern man and Rev. E. B. Spalding would have filled the bill better than any man in California.
